

Piero Pes . Curriculum Vitae

I was born in Olbia on the 22nd of January 1952.

I live in Sassari, but i'm very present, especially during the spring and summer, in Olbia, in Gallura, where i still keep a flat.

I abandoned the faculty of languages and foreign letterature in Florence and matured experiences in the tourist field, working for some travel agencies at the Costa Smeralda airport. I saw the great transformation that large international tourism investiments made on the island changing its face.

I started as a self-taught tour guide, when there were no books on the island to study. Sardinia, until then, was forgotten by world.

I was and i am passionate in understanding and explaining my island to tourists.

In 1996, i got from the Region of Sardinia the licence as tourist guide.

I've worked as freelancer throught the island territory accompanyg small and large groups. for short and long tours, even as tour leader, in Sardinia and Corsica.

Naturally i work, as well, for daily excursions and cruise ships.

When needed, i can personalize days for a few clients driving my car.

I collaborate, in italian and english, with several italian and foreign tour operators.

I'm the author of some photographic books on peculiar aspects of the Sardinian realities.
